Cooperation

Global Water & Energy - a member of the Global Water Engineering Group of Companies, is looking for cooperation opportunities in Serbia.

We are a solution provider to the global market place for the production of green energy, biogas processing, industrial wastewater treatment, and water reuse. With the widest portfolio of environmental technologies from any vendor, we can handle the most challenging industrial wastewater and organic waste treatment.

If you operate in the food, beer, and beverage, paper, waste-to-energy industry, meet us in Belgrade. Besides direct clients, we are open to meet possible agents and partners in Serbia.

Cooperation Offered

1. Sales / Distribution
