Description

Budapest Waterworks currently supplies almost 2.5 million people with drinking water and wastewater services in Budapest and 12 municipalities. The engineering, management and construction knowledge, based on more than 150 years of operating experience provide us with an excellent background for development projects as investments in facilities network and wells, for non-revenue-water reduction and efficiency improvement projects. Budapest Waterworks is the flagship member of the Hungarian Water Treatment Cluster, whose activities cover the entire scope of water industry.
