Bilateral Meetings

- Thursday 13:00 - 16:30

Description

Rimóczi Filters is a specialist in the manufacturing of both standard and customized industrial liquid, air and dust filtration products and a servicer of expanded filter management since 1991. Our product range involves a wide scale of item lines such as filter cartridges, filter elements, equipment and accessories that are considered as a necessity in professional air, liquid and dust filtration. Furthermore, we provide comprehensive solutions in relations with planning and installing of the above-mentioned filtration devices. Rimóczi Filters has two modernized production sites, just as well as a logistic warehouse in Hungary. Our aim is to offer complete filtration solutions to our associates and further to provide professional maintenance and logistic services for client requests.
