Bilateral Meetings

- Thursday 13:00 - 16:30

Description

Since 2018, UnBeSo, as a civil organization derived from the EIT Climate KIC Programme Pioneers in Practice, promotes a more responsible behavior in society and in business through 3 objectives: 1. Activating and empowering youth in geo waste-related challenges. 2. Bringing cutting-edge digital and social solutions. 3. Systemically raise awareness, bring transparency of waste flows and activate youth and community in the urban transition towards sustainable, zero-carbon societies. The mission is to engage and connect citizens in waste separation and realize a symbiotic multi-stakeholder action plan, within the digital multi-functional platform and IT app, in order to secure a buy-in of important actors of the system, meaning local enterprises; academia; civil society (knowledge triangle); communal system; city and media
