Areas of Activities

Renewable energy and following infrastructure

Energy Efficiency

Sustainable Water Management

Solid Waste Management

Offer & Request

Cooperation in the field of waste water

aqua consult is specialized in industrial and municipal waste water and sludge treatment projects. We are looking for projects in this field and for engineering partners to form local Joint-Ventures.

Keywords: Cooperation Engineering Joint-Venture

Cooperation Offered

1. Technical co-operation

Cooperation Requested

1. Technical co-operation

Offer & Request

WWTP Optimization municipal and industrial

Optimization and rehabilitation engineering for existing municipal or industrial waste water treatment plants

Keywords: Optimization Rehabilitation municipal and industrial

Cooperation Offered

1. Technical co-operation

Cooperation Requested

1. Technical co-operation

Offer & Request

Sludge treatment

Sludge treatment concepts and technologies including Co-Fermentation

Keywords: sludge Co-fermentation sludge drying

Cooperation Offered

1. Technical co-operation

Cooperation Requested

1. Technical co-operation

Offer & Request

Energetic autarky WWTP

Design of energetic autarky waste water treatment plants - for existing or new plants

Keywords: Energetic autarky WWTP Biogas

Cooperation Offered

1. Technical co-operation

Cooperation Requested

1. Technical co-operation
