Bilateral Meetings

- Thursday 10:00 - 12:00
- Thursday 12:00 - 13:00

Description

doro Turbine is an award-winning start-up company, based in Graz-Austria, that is developing solutions for the **simple utilisation of hydropower with very low heads**.

The doro-C Compact comes **totally prefabricated** in a **20ft standard container**, which includes not just the turbine itself, but also the entire automation system as well as the electrical components.

This makes doro-C the **first plug & play hydroelectric power plant**, especially designed for **non-experts**, which are

- simple,
- reliable &
- affordable.

Request

Co-operation for market development

doro is requesting companies as well as individuals, which believe in the decentralised power of hydro electricity. We are searching for collaboration partners for prototyping our doro-C Compact plug & play power plant in the CEE region and for evaluating these markets.

Keywords: very-low-head plug&play hydropower for non-experts

Cooperation Requested

1. Technical co-operation
2. Sales / Distribution
3. Investment/Financing
